

Half a man

C: IV G-dur

Backseat

Every time I wake up I'm thinking of you
even when I close my eyes
You're shining' through
the curtain I'm trying to make,
and the pride that I'm trying to fake.

I'm telling everybody about things that I do
I'm travelling 'round the world
riding' high without you.
But everyone knows it's a lie
'cause emptiness shows in my eyes.

*I can never go back to what I've been
can't even get close to in between
I'm loosing my mind
'cause all I can find is half a man.*

*Can't make it with you can't make it without
I don't find no answers I'm always in doubt
I'm deaf dumb and blind
'cause all I can find is half a man.*

How could you do it leave me like that
stealing' away that confidence that I never had
'cause where you didn't have the guts to stay

I'm stuck with me I can't get away!

*I can never go back to what I've been
can't even get close to in between*

*I'm loosing my mind
'cause all I can find is half a man*

*I can't make it with you can't make it without
I don't find no answers I'm always in doubt
I'm deaf dumb and blind
'cause all I can find is half a man.*

<Mellempil>

*I can never go back to what I've been
can't even return to in between
I'm loosing my mind 'cause all I can find
is half a man*

I can't recall just how I was
nothing cuts deep like loosing does
and all I can find is what you left behind
- half a man.

Only half a man. Only half a man.
Only half a man. Only half a man.
